# Omar Adel

## Full Stack Developer

Cairo, Egypt | omaradelawad@gmail.com | +201026986380 | in/omaradelawad | https://omar-adel.netlify.app

## SUMMARY

Full Stack Developer specializing in React.js for frontend development and proficient in various backend technologies. Recognized for crafting pixel-perfect UI/UX, delivering reusable code, and thriving in collaborative environments. Proven ability to ensure coding best practices, conduct efficient testing, and deliver scalable solutions within tight deadlines.

## EXPERIENCE

**Inframodern** (March 2024 - Present)
Full Stack Developer

- Played a key role in developing admin panels for three different projects.
- Collaborated with senior developers for task assignments and code reviews; worked closely with the UI/UX team to translate design concepts into functional web pages.
- Led the development of a new project, guiding and mentoring new developers.
- Contributed to refactoring legacy codebases, enhancing code maintainability, and improving the performance of backend APIs.
- Developed backend APIs and implemented pixel-perfect UI designs.

## PROJECTS

**Dream Restaurant** (December 2023 - January 2024)
https://dream-restaurant.netlify.app

- Spearheaded collaboration within a dedicated front-end team to deliver a MERN Stack web app for streamlined online food ordering and reservations.
- Led the implementation of an intuitive online ordering and reservation system, improving menu navigation and ensuring seamless user-friendly interactions.

**Movie Maze** (October 2023)
https://movie-maze-app.netlify.app

- Developed a React.js web application, leveraging Tailwind CSS and TypeScript to create an engaging user experience.
- Integrated the TMDB API to provide comprehensive details of movies and TV series, enhancing content discovery.

**Socio App** (September 2023 - October 2023)
https://sociooapp.netlify.app

- Orchestrated front-end development efforts for a collaborative React.js TypeScript social media app, driving user engagement and interaction.
- Strategically addressed backend bugs, resulting in a notable 66% reduction in data fetching requests and a marked improvement in performance.

**Shop Nest** (July 2023 - August 2023)
https://shop-nest-app.netlify.app

- Engineered a robust React.js e-commerce platform, incorporating Redux Toolkit and Tailwind CSS for efficient user interface design.
- Implemented advanced features such as category browsing, dynamic homepage displays, and secure user authentication systems to optimize the shopping experience.

## EDUCATION

**Bachelor's Degree in Computer Science & Statistics.**                    September 2019 - June 2023

Faculty of Science Ain Shams University - Cairo, Egypt
